 - viii Regardless of the fact that the Trading Platform might confirm that a Contract is executed immediately when the Client transmits instructions via the Trading Platform, it is the Trade Confirmation forwarded by Saxo Capital Markets or made available to the Client on the Trading Platform which alone constitutes Saxo Capital Markets' confirmation of a Contract.
- 4.4. Any instruction sent via the Trading Platform or by e-mail by the Client shall only be deemed to have been received and shall only then constitute a valid instruction and/or binding Contract between Saxo Capital Markets and the Client when such instruction has been recorded as executed by Saxo Capital Markets and confirmed by Saxo Capital Markets to the Client through the Trade Confirmation and/or Account Statement, and the mere transmission of an instruction by the Client shall not constitute a binding Contract between Saxo Capital Markets and the Client.
- 4.5. The Client shall promptly provide any instructions to Saxo Capital Markets, which Saxo Capital Markets may require. If the Client does not provide such instructions promptly, Saxo Capital Markets may, at its reasonable discretion, take such steps at the Client's cost, as Saxo Capital Markets considers necessary or desirable for its own protection or the protection of the Client. - 4.7. Saxo Capital Markets may (but shall not in any circumstances be obliged to) require confirmation in such form as Saxo Capital Markets may reasonably request if an instruction is to close an Account or remit money due to the Client or if it appears to Saxo Capital Markets that such confirmation is necessary or desirable.

- 4.10. In general, Saxo Capital Markets shall act according to instructions as soon as practically possible and shall, as far as trading instructions are concerned, act consistent with the bank's Best Execution Policy. However if, after instructions are received, Saxo Capital Markets believes that it is not reasonably practicable to act upon such instructions within a reasonable time, Saxo Capital Markets may defer acting upon those instructions until it is, in Saxo Capital Markets' reasonable opinion, practicable to do so or notify the Client that Saxo Capital Markets is refusing to act upon such instructions.
- 4.11. It is possible that errors may occur in the prices of transactions quoted by Saxo Capital Markets. In such circumstances, without prejudice to any rights it may have under the laws of Singapore, Saxo Capital Markets shall not be bound by any Contract which purports to have been made (whether or not confirmed by Saxo Capital Markets) at a price which:
- i Saxo Capital Markets is able to substantiate to the Client was manifestly incorrect at the time of the transaction; or

Provided that Saxo Capital Markets can document that there at the time of such conclusion of the trade were errors in prices, commissions, or in the Trading Platform, and provided Saxo Capital Markets can render probable that the Client, based on its trading

strategy or other provable behaviour, deliberately and/or systematically has exploited or attempted to exploit such an error, Saxo Capital Markets is entitled to take one or more of the following countermeasures:

- i Adjust the price spreads available to the Client;
 - ii Restrict the Client's access to streaming, instantly tradable quotes, including providing manual quotation only;

- i the liabilities of each such person shall be direct, joint and several;
 - ii Saxo Capital Markets may act upon instructions received from any one person who is, or appears to Saxo Capital Markets to be, such a person, whether or not such person is an Authorised Person;
 - iii any notice or other communication provided by Saxo Capital Markets to one such person shall be deemed to have been provided to all such persons; and
 - iv the rights of Saxo Capital Markets under Clause 18 shall apply if an event described in Clause 18 shall be deemed to have occurred in respect of any one of such persons.
- 4.14. The Client agrees that Saxo Capital Markets may record all telephone conversations, internet conversations (chat), and meetings between the Client and Saxo Capital Markets and use such recordings, or transcripts from such recordings, as evidence towards any party (including, but not limited to, any regulatory authority and/or court of law or dispute resolution body) to whom Saxo Capital Markets at its reasonable discretion sees it to be desirable or necessary to disclose such information in any dispute or anticipated dispute between Saxo Capital Markets and the Client. However, technical reasons may prevent Saxo Capital Markets from recording a conversation, and recordings or transcripts made by Saxo Capital Markets will be destroyed in accordance with Saxo Capital Markets' normal practice. Consequently, the Client should not rely on such recordings to be available.
- 4.15. When the Client instructs Saxo Capital Markets to enter into a position which is opposite to one or more of the Client's open positions, Saxo Capital Markets will close out the opposite position in accordance with the FIFO principles unless the position has related orders or if otherwise so agreed.

- 4.20. The Client shall enter his user ID and password when logging on to the Trading Platform. The Client should memorise the password. Entering an incorrect password five times in a row will automatically terminate the connection and block the user ID. The Client can then order a new password.
- 4.21. The Client can block his Trading Platform at any time by contacting Saxo Capital Markets Customer Services. Blocking the Trading Platform prevents other persons from accessing it. - 4.22. The right to use the Trading Platform is personal, and the Client shall not allow other persons to use his user ID and/or his password. If the Client wants to allow a third party to trade on the Client's account, the Client shall issue a separate power of attorney to the relevant third party. The power of attorney shall be written on one of Saxo Capital Markets' power of attorney forms. The issue of the power of attorney shall be approved by Saxo Capital Markets. The Client is advised that Saxo Capital Markets shall have the right, in addition to any other rights it may have under the Terms, or under the laws of Singapore in general, to limit the size of the Client's open positions (net or gross) and to refuse orders to establish new positions. Situations where Saxo Capital Markets may exercise such right include, but are not limited to, where:
 - i Saxo Capital Markets has reason to believe that the Client may be in possession of Inside Information;
 - ii Saxo Capital Markets considers that there are abnormal trading conditions;
 - iii the value of the Client's Collateral (as determined by Saxo Capital Markets in accordance with Clause 6.4) falls below the minimum margin requirement as defined in Saxo Capital Markets' Commissions, Charges & Margins Schedule;
 - iv the Client has a negative cash-balance on any account.
 - v Saxo Capital Markets considers the trade to be a suspicious trade.

7 MARGIN TRADES

- 7.1. On the date of the opening of a Margin Trade between Saxo Capital Markets and the Client, Saxo Capital Markets may require the Client to have margin on the Account at least equivalent to Saxo Capital Markets' initial margin requirement.
- 7.2. Saxo Capital Markets' margin requirement shall apply throughout the term of the Margin Trade. It is the Client's responsibility continuously to ensure that sufficient margin is available on the Account at any time. If practicable Saxo Capital Markets shall notify the Client if the margin requirements are not met. If, at any time during the term of a Margin Trade, the margin available on the Account is not sufficient to cover Saxo Capital Markets' margin requirement, the Client is obliged to reduce the amount of open Margin Trades or undertake

such other adequate action to immediately satisfy the margin requirements. Even if the Client takes steps to reduce the size of open Margin Trades or undertakes any other action to satisfy the margin requirements, Saxo Capital Markets may close one, several or all of the Client's Margin Trades or part of a Margin Trade and/or liquidate or sell securities or other property at the Client's account at its sole discretion without assuming any responsibility towards the Client for such action.

- 7.3. If Saxo Capital Markets due to insufficient margin closes one, several or all of the Client's Margin Trades, the Client shall expect, unless otherwise agreed and confirmed by Saxo Capital Markets that all of the Client's open Margin Trades will be closed.
- 7.4. If the Client has opened more than one Account, Saxo Capital Markets is entitled to transfer money or Collateral from one Account to another, even if such transfer will necessitate the closing of Margin Trades or other trades on the Account from which the transfer takes place.
- 7.5. Saxo Capital Markets' general margin requirements for different types of Margin Trades are displayed on Saxo Capital Markets' web site. However, Saxo Capital Markets reserves the right to determine specific margin requirements for individual Margin Trades.
- 7.6. The Client is specifically made aware that the margin requirements are subject to change without notice. When a Margin Trade has been opened, Saxo Capital Markets is not allowed to close the Margin Trade at its discretion but only at the Client's instruction or according to Saxo Capital Markets' rights under the Terms. However Saxo Capital Markets will increase the margin requirements if Saxo Capital Markets considers that its risk on a Margin Trade has increased as compared to the risk on the date of the opening.
- 7.7. Notwithstanding the clause above Saxo Capital Markets shall be entitled without prior notice to make any reduction to a margin trade opened by Client if Saxo Capital Markets at its own discretion in good faith so determines.

The Client is obliged to provide Saxo Capital Markets with an e-mail address for this purpose. An e-mail message is considered received by the Client when sent from Saxo Capital Markets. Saxo Capital Markets is not responsible for any delay, alteration, re-direction or any other modification the message may undergo after transmission from Saxo Capital Markets. A message on the Client's account on the Trading Platform is considered received by the Client when Saxo Capital Markets has placed the message on the Trading Platform. It is the responsibility of the Client to ensure that the Client's software and hardware setup does not prohibit the Client in any way from receiving e-mails or getting access to the Trading Platform from Saxo Capital Markets.

8.4. The Client is obliged to verify the contents of each document, including documents sent in electronic form from Saxo Capital Markets. Such documents shall, in the absence of manifest error, be deemed conclusive unless the Client notifies Saxo Capital Markets in writing to the contrary immediately after having received such document. In the event that the Client believes to have entered into a transaction or Contract, which should have produced a Trade Confirmation or otherwise a posting on the Client's account, but the Client has not received such confirmation, the Client must inform Saxo Capital Markets immediately when the Client ought to have received such confirmation. In the absence of such information the transaction or Contract may at Saxo Capital Markets' absolute discretion be deemed non-existent.

8.5. By accepting the Terms the Client consents to the fact that Saxo Capital Markets keeps the Client's assets in omnibus custody accounts, in Singapore or abroad, together with assets belonging to other clients. Saxo Capital Markets shall keep a register clearly specifying the individual clients' right of ownership to the assets registered. In the event of Saxo Capital Markets' default, the Client shall based on the register be entitled to withdraw the Client's assets from the omnibus custody account if there is no pre-existing dispute concerning the Client's right of ownership. The Client accepts that such assets are not registered with the relevant clearing institution or custodian in the Client's name but in Saxo Capital Markets' name on behalf of Clients. Consequently, the Client will not be personally entitled to compensation for errors committed by the relevant clearing organisation, if any. The Client waives the right to any interest, or any returns on any investment of moneys received that may accrue on such custody accounts.

8.6. Notwithstanding any other provisions in these Terms or any arrangement or agreement between the Client and Saxo Capital Markets, Saxo Capital Markets shall not be liable to the Client for the return of the Client's assets which may be or may have been placed by Saxo Capital Markets with any clearing institution, custodian,

nominee, agent, bank or financial institution, in the event of the Insolvency of such clearing institution, custodian, nominee, agent, bank or financial institution. For purposes of this Clause 8.6, "Insolvency" shall mean any action, legal proceeding or other procedure or any step which is taken in relation to the suspension of payments, a moratorium of any indebtedness, winding-up, dissolution, administration, judicial management, reorganization (by way of voluntary arrangement, scheme of arrangement or otherwise) of such clearing institution, custodian, nominee, agent, bank or financial institution, a composition, compromise or arrangement with any creditor of such clearing institution, custodian, nominee, agent, bank or financial institution, or the appointment of a trustee in bankruptcy, liquidator, judicial manager, receiver, trustee or other similar official for any part of the property, revenues or undertaking of such clearing institution, custodian, nominee, agent, bank or financial institution, or enforcement of any security over any assets of such clearing institution, custodian, nominee, agent, bank or financial institution.

9.5. Furthermore, Saxo Capital Markets shall be entitled to demand that the following expenses are paid separately by the Client:

- 9.6. The fees will be charged either as a fixed amount corresponding to payments effected, or as a percentage or hourly rate corresponding to the service performed. The methods of calculation can be combined. Saxo Capital Markets reserves the right to introduce new fees.
- 9.7. Saxo Capital Markets may share commissions and charges with its associates, Introducing Brokers or other third parties or receive remuneration from them in respect of Contracts entered into by Saxo Capital Markets. Details of any such remuneration or sharing arrangement will not be set out on the relevant Trade Confirmation. Saxo Capital Markets (or any associate) may benefit from commission, mark-up, mark-down or any other remuneration where it acts for the Counterparty to a Contract.
- 9.8. Unless specified otherwise in the Terms, all amounts due to Saxo Capital Markets (or Agents used by Saxo Capital Markets) under the Terms shall, at Saxo Capital Markets' option:
- i be deducted from any funds held by Saxo Capital Markets for the Client; or
 - ii be paid by the Client in accordance with the provisions of the relevant difference account, Trade Confirmation or other advice.
- 9.9. In respect of any transactions to be effected OTC, Saxo Capital Markets shall be entitled to quote prices at which it is prepared to trade with the Client. Save where Saxo Capital Markets exercises any rights it may have under the Terms to close a Contract, it is the Client's responsibility to decide whether or not it wishes to enter into a Contract at such prices.
- 9.10. Furthermore, the Client acknowledges, recognises and accepts that the procedures described in Clause 10, Interest and Currency Conversions, and Clause 13, Market Making, may result in additional indirect costs for the Client.

10 INTEREST AND CURRENCY CONVERSIONS

- 10.1. Subject to the Clause below and save as otherwise agreed in writing, Saxo Capital Markets shall not be liable to:
- i pay interest to the Client on any credit balance in any Account or on any other sum held by Saxo Capital Markets; or
 - ii account to the Client for any interest received by Saxo Capital Markets on such sums or in connection with any Contract.
- 10.2. The Client is entitled to interest on the basis of the Client's positive Net Free Equity in accordance with the terms of Saxo Capital Market's Commissions, Charges & Margin Schedule.
- 10.3. The Client is obliged to pay interest on the basis of the Client's negative Net Free Equity in accordance with the terms of Saxo Capital Markets' Commissions, Charges & Margin Schedule.
- 10.4. Saxo Capital Markets may vary such interest rates and /or thresholds for interest calculation without notice when changes are to the Client's advantage, or the grounds for changes are due to external circumstances beyond Saxo Capital Markets' control. Such circumstances are:
- i Changes in the monetary or credit policies domestic or abroad that affect the general interest level in a way that is of importance to Saxo Capital Markets;
 - ii Other developments in the general interest level, including in the money and bond markets, in a way that is of importance to Saxo Capital Markets;
 - iii Changes in the relationship with Saxo Capital Markets' Counterparties, which affect Saxo Capital Markets' cost structures.
- 10.5. Saxo Capital Markets may vary such interest rates with one month's notice if:
- i market conditions, including competitive behaviour, call for changes to Saxo Capital Markets conditions;
 - ii Saxo Capital Markets wishes to change its general commission, fee and pricing structure for commercial reasons;
 - iii significant particulars of the Client, based on which individual conditions were provided, have changed.
- 10.6. Saxo Capital Markets is entitled to (but shall not in any circumstances be obliged to) convert:
- i any realised gains, losses, option premiums, commissions, interest charges and brokerage fees which arise in a currency other than the Client's base currency (i.e. the currency in which the Client's Account is denominated) to the Client's base currency;
 - ii any cash currency deposit to another cash currency deposit for the purpose of purchasing an asset denominated in a currency other than the Client's base currency;
 - iii any monies held by Saxo Capital Markets for the Client into such other currency as Saxo Capital Markets considers necessary or desirable to cover the Client's obligations and liabilities in that currency.
- 10.7. Whenever Saxo Capital Markets conducts currency

conversions, Saxo Capital Markets will do so at such reasonable rate of exchange as Saxo Capital Markets shall select. Saxo Capital Markets shall be entitled to charge and retain for its own account a mark-up on the exchange rates for arranging such conversion as Saxo Capital Markets may from time to time specify and publish in the Commission, Charges & Margin Schedule.

11 PLEDGE AGREEMENT

- 11.1. Any and all Collateral transferred to Saxo Capital Markets by the Client or held by Saxo Capital Markets or by Saxo Capital Markets' Counterparties on behalf of the Client is pledged as a security for any liability that the Client may have or get towards Saxo Capital Markets. Without limitation such Collateral shall comprise the credit balances on Accounts, the securities registered as belonging to the Client on Saxo Capital Markets' books, and the value of the Client's open positions with Saxo Capital Markets.
- 11.2. If the Client fails to fulfill any obligation under the Terms, Saxo Capital Markets is entitled to sell any pledged Collateral immediately without any notice or court action. Such sale shall take place by the means that Saxo Capital Markets in its reasonable discretion determines and at the price that Saxo Capital Markets in its reasonable discretion determines to be the best obtainable.

12 NETTING AGREEMENT

- 12.1. If on any date the same amounts are payable under the Terms by each party to the other in the same currency, then, on such date, each party's obligations to make payment of any such amount will be automatically satisfied and discharged by netting. If the amounts are not in the same currency, the amounts are converted by Saxo Capital Markets in accordance with the principles referred to in Clause 10.
- 12.2. If the aggregate amount that is payable by one party exceeds the aggregate amount that is payable by the other party, then the party by whom the larger aggregate amount is payable shall pay the excess to the other party and the obligations to make payment of each party will be satisfied and discharged.
- 12.3. If the Client at any time during the Client relationship, has a negative cash balance in any Account, Saxo Capital Markets is entitled but not obligated to net between the Client's Accounts. The Client shall bear all the charges and any other costs associated with such netting.
- 12.4. If the Client relationship is terminated according to Clause 23, the claims that the parties have against each other shall be finally discharged by means of netting (closed). The value of open Contracts shall be determined according to the principles set forth below and the final amount to be paid by one of the parties shall be the difference between the payment obligations of the parties.

- 12.5. The rates based on which the Contracts shall be closed shall be the market rates applicable on the day on which Saxo Capital Markets decides to close the Contracts.
- 12.6. Saxo Capital Markets may at its reasonable discretion determine the rates by obtaining an offer from a market maker in the asset in question or by applying rates from electronic financial information systems.
- 12.7. When determining the value of the Contracts to be netted, Saxo Capital Markets shall apply its usual spreads and include all costs and other charges.
- 12.8. This netting agreement shall be binding on the estate and creditors of the parties to the client relationship.

13 MARKET MAKING

- 13.1. When Saxo Capital Markets executes orders as Agent for the Client on a recognised stock or futures exchange, Saxo Capital Markets will not be a party to such a trade as such orders will be executed in the trading system of the relevant exchange at the best price and the most favourable conditions available at the time of the order or according to the Client's specific instructions, e.g. in a situation where the Client has chosen to limit the order. Saxo Capital Markets will not include any additional spread in the price of the execution achieved for the Client but will be remunerated according to the Commission, Charges & Margin Schedule.
- 13.2. The Client is specifically made aware that in certain markets, including - but not necessarily limited to - foreign exchange markets, OTC foreign exchange options and CFD Contracts, Saxo Bank Group may act as a market maker.
- 13.3. Saxo Capital Markets will, upon the Client's written request, in general disclose to the Client whether Saxo Bank Group may act as a market maker in a certain instrument.
- 13.4. When Saxo Bank Group is acting as a market maker, Saxo Capital Markets will under normal market circumstances quote the Client bid and ask prices.
- 13.5. In order for Saxo Capital Markets to quote prices with the swiftness normally associated with speculative trading, Saxo Capital Markets may have to rely on available price or available information that may later prove to be faulty due to specific market circumstances, for instance, but not limited to, lack of liquidity in or suspension of an asset or errors in feeds from information providers or quotes from Counterparties. If so and if Saxo Capital Markets has acted in good faith when providing the price to the Client, Saxo Capital Markets may cancel the trade with the Client but shall do so within reasonable time and shall provide the Client with a full explanation for the reason for such cancellation.
- 13.6. Following execution of any position with a client, Saxo Bank Group may at Saxo Bank Group's reasonable discretion subsequently offset each such client position with another client position, or a position with one of Saxo Bank Group's Counterparties or retain a

- proprietary position in the market with the intention to obtain trading profits from such positions. Such decisions and actions may therefore result in Saxo Bank Group offsetting client positions at prices different - sometimes significantly different - from prices quoted to clients, resulting in trading profits or losses for Saxo Bank Group. This in turn can raise the possibility of the Client incurring what may be seen as an implied cost (i.e. the difference between the price at which the Client traded with Saxo Bank Group and the price at which Saxo Bank Group subsequently traded with Counterparties and/or other clients) due to any profits realised by Saxo Bank Group as a result of the market making function. However the market making function may involve significant costs to Saxo Bank Group if the market moves against Saxo Bank Group as compared to the price at which Saxo Capital Markets traded with the Client.
- 13.7. The Client accepts that Saxo Capital Markets in such markets where Saxo Bank Group acts as Market Maker, may hold positions that are contrary to positions of the Client, resulting in potential conflicts of interest between Saxo Bank Group and clients.
- 13.8. In markets, where Saxo Bank Group acts as a Market Maker, the Client accepts that Saxo Capital Markets has no obligation to quote prices to clients at all times in any given market, nor to quote such prices to clients with a specific maximum spread.
- 13.9. In markets, where Saxo Bank Group acts as a market maker, Saxo Capital Markets may or may not charge commissions. However, irrespective of whether or not Saxo Capital Markets charges any commissions, the Client accepts that Saxo Bank Group will seek to make additional profits out of its performance as a market maker and the size of any such profits may be considerable if and when compared with the Client's margin deposit.
- 13.10. The Client acknowledges, recognises and accepts that the price quoted to the Client includes a spread when compared with the price to which Saxo Capital Markets may have covered or expected to be able to cover the Contract in a trade with another client or a Counterparty. Furthermore, the Client acknowledges, recognises and accepts that said spread constitutes remuneration to Saxo Capital Markets and that such spread cannot be calculated for all Contracts are concerned and that such spread will not be specified at the Trade Confirmation or otherwise revealed to the Client.
- 13.11. Any commission costs, interest charges, costs associated to and included in the spreads quoted by Saxo Capital Markets when Saxo Bank Group acts as a market maker in certain markets and other fees and charges will consequently influence the Client's trading result and will have a negative effect on the Client's trading performance compared to a situation if such commission costs, interest charges, costs associated to and included in the spreads did not apply.
- 13.12. The Client acknowledges, recognizes and accepts that Saxo Capital Markets quotes variable spreads on options. The Client is specifically made aware that variable option spreads are affected by actual market conditions, which are beyond Saxo Capital Markets' control. Saxo Capital Markets does not guarantee any maximum or minimum quotable option spreads.
- 13.13. Whilst dealing spreads and commissions are normally considered moderate seen in relation to the value of the underlying assets traded, such costs may be considerable when compared with the Client's margin deposit. It is a consequence thereof that the Client's margin deposit may be depleted by trading losses that the Client may incur and by the directly visible dealing costs such as commissions, interest charges and brokerage fees as well as the said not visible costs for the Client, caused by Saxo Bank Group's performance as a market maker.
- 13.14. If the Client is an active trader and is undertaking numerous transactions, the total impact of visible as well as not visible costs may be significant. Consequently the Client may have to obtain significant profits in the markets in order to cover the costs associated with trading activities with Saxo Capital Markets. For very active Clients, such costs may over time exceed the value of the margin deposited. Normally, when trading margined derivatives, the lower the percentage of the applicable margin rate, the higher the proportion of the costs associated with executing a transaction.
- 13.15. The Client is specifically made aware that in the area of market making in foreign exchange, OTC foreign exchange options, CFD Contracts and other OTC products, significant implied costs can arise as a consequence of the profits made by Saxo Bank Group performing in its capacity as a market maker.
- 13.16. Saxo Bank Group's performance as a market maker may negatively affect the Client's Account with Saxo Capital Markets and the said implied costs are neither directly visible nor directly quantifiable for the Client at any time.
- 13.17. Saxo Bank Group is at no time under any obligation to, nor will Saxo Bank Group, at any time disclose any details of its performance or income produced as a market maker or otherwise related to other commissions, charges and fees.
- 13.18. The Client is specifically made aware that CFD Contracts may be OTC products quoted by Saxo Capital Markets whilst Saxo Bank Group is operating as a market maker and not traded on a recognised stock exchange. As a result, the description above of the implied, not visible costs related to Saxo Bank Group's performance as a market maker may also apply to any CFD Contract.

14 AGGREGATION AND SPLIT

- 14.1. Saxo Capital Markets is in accordance with its Best Execution Policy entitled to aggregate the Client's orders with its own orders, orders of any of its associates and/or persons connected with the Saxo Bank Group including employees and other clients. Furthermore, Saxo Capital Markets may split the Client's orders when executing these. The orders will only be aggregated or split if Saxo Capital Markets reasonably believes it to be in the best interests of the Client. On some occasions aggregation and split of the Client's order may on some occasions result in the Client obtaining a less favourable price than if the Client's orders had been executed respectively separately or mutually.

15 CONFLICTS OF INTEREST

- 15.1. Saxo Capital Markets, its associates or other persons or companies connected with Saxo Capital Markets or Saxo Bank Group may have an interest, relationship or arrangement that is material in relation to any transaction or Contract effected, or advice provided by Saxo Capital Markets, under the Terms. By accepting the Terms and Saxo Capital Markets' Conflict of Interest Policy (which distinctly describes the general character and/or background of any conflict of interest) the Client agrees that Saxo Capital Markets may transact such business without prior reference to any potential specific conflict of interest.

16 SAXO CAPITAL MARKETS' COUNTERPARTIES

- 16.1. In order to give effect to the Client's instructions, Saxo Capital Markets may instruct a Counterparty selected at Saxo Capital Markets' discretion and Saxo Capital Markets shall do so where the transaction is to be subject to the rules of an exchange or market of which Saxo Capital Markets is not a member.
- 16.2. Saxo Capital Markets shall not be responsible for errors committed by such Counterparties unless it is proven that Saxo Capital Markets has not acted with sufficient care when selecting the Counterparty.

17 INTRODUCING BROKERS

- 17.1. The Client may have been referred to Saxo Capital Markets by an Introducing Broker. If so, Saxo Capital Markets shall not be responsible for any agreement made between the Client and the Client's Introducing Broker. The Client acknowledges that any such Introducing Broker will either be acting as an independent intermediary or an Agent for the Client and that no such Introducing Broker shall be authorised to make any representations concerning Saxo Capital Markets or its Services.
- 17.2. The Client is specifically made aware that the Client's agreement with the Introducing Broker may result in

additional costs as Saxo Capital Markets may pay fees or commission to such person.

- 17.3. The Client is also specifically made aware that the Client's agreement with its Introducing Broker may result in additional costs for the Client because the Introducing Broker can deduct commissions and fees as well as price or interest/financing rate adjustments for any trade conducted on or allocated to the Client's account either by the Introducing Broker or the Client.
- 17.4. If the Introducing Broker undertakes any deductions from the Client's Trading Account according to any agreement between the Client and the Introducing Broker, Saxo Capital Markets shall have no responsibility to verify the existence or validity of such an agreement or its terms.
- 17.5. Saxo Capital Markets shall have no responsibility or liability to the Client in following the instructions given by the Introducing Broker. Saxo Capital Markets is under no obligation to supervise or otherwise know or review the payment instructions or any other acts, including but not limited to the trading, of the Introducing Broker.
- 17.6. The Client acknowledges and accepts that frequent transactions may result in a sum total of commissions, fees, price or interest/financing rate adjustments for trades conducted that may be substantial and not necessarily be offset by the net profits, if any, achieved from the relevant trades. The responsibility for correctly assessing whether the size of the total commissions, fees, price or interest/financing rate adjustments for trades conducted paid from the Client's account makes trading commercially viable, is the combined responsibility of the Client and the Introducing Broker. Saxo Capital Markets only acts as the custodian and principal broker, and therefore is not responsible for the size of the commissions and fees as well as price or interest rate paid by the Client.
- 17.7. Any commissions, fees, price or interest/financing rate adjustments for trades conducted may be shared between the Introducing Broker, Saxo Capital Markets and third parties according to the Introducing Broker's written instructions and/or at Saxo Capital Markets' discretion.

18 DEFAULT AND DEFAULT REMEDIES

- 27.4. If the Client's combined exposure in one or more margin trades reaches a level which in case of an adverse market development may lead to a significant deficit not covered by the Client's deposits and/or margin with Saxo Capital Markets, Saxo Capital Markets may in its reasonable discretion (i) increase the margin requirements and/or (ii) reduce the Client's exposure by closing one or more or all of the client's open positions.

 - ii operate as a waiver of such right, power or remedy.
- 27.10. No waiver of any breach of any clause in the Terms shall (unless expressly agreed in writing by the waiving party) be construed as a waiver of a future breach of the same clause or as authorising a continuation of the particular breach.

- 27.14. Saxo Capital Markets or third parties may have provided the Client with translations of the Terms. The original English version shall be the only legally binding version for the Client and Saxo Capital Markets. In case of discrepancies between the original English version and other translations in the Client's possession, the original English version provided by Saxo Capital Markets shall prevail.

This statement is provided to you in accordance with section 128(1) of the Securities and Futures Act (Cap. 289) (the Act).

This statement does not disclose all the risks and other significant aspects of trading in futures, options and leveraged foreign exchange. In light of the risks, you should undertake such transactions only if you understand the nature of the contracts (and contractual relationships) into which you are entering and the extent of your exposure to the risks. Trading in futures, options and leveraged foreign exchange may not be suitable for many members of the public. You should carefully consider whether such trading is appropriate for you in the light of your experience, objectives, financial resources and other relevant circumstances. In considering whether to trade, you should be aware of the following:

LEVERAGED FOREIGN EXCHANGE, CFD'S AND FUTURES

1. Effect of "Leverage" or "Gearing"

Transactions in leveraged foreign exchange, CFD's and futures carry a high degree of risk. The amount of initial margin is small relative to the value of the foreign exchange, CFD's or futures contract so that transactions are "leveraged" or "geared". A relatively small market movement will have a proportionately larger impact on the funds you have deposited or will have to deposit; this may work against you as well as for you. You may sustain a total loss of initial margin funds and any additional funds deposited with the firm to maintain your position. If the market moves against your position or margin levels are increased, you may be called upon to pay substantial additional funds on short notice to maintain your position. If you fail to comply with a request for additional funds within the specified time, your position may be liquidated at a loss and you will be liable for any resulting deficit in your account.

2. Risk-reducing Orders or Strategies

The placing of certain orders (e.g. "stop-loss" orders, where permitted under local law, or "stop-limit" orders), which are intended to limit losses to certain amounts, may not be effective because markets conditions make it impossible to execute such orders. Strategies using combinations of positions, such as "spread" and "straddle" positions may be as risky as taking simple "long" or "short" positions.

(see the section on Leveraged Foreign Exchange, CFD's and Futures above). If the purchased option expires worthless, you will suffer a total loss of your investment, which will consist of the option premium plus transaction costs. If you are contemplating purchasing deep-out-of-the-money options, you should be aware that the chance of such options becoming profitable ordinarily is remote.

Selling ("writing" or "granting") an option generally entails considerably greater risk than purchasing options. Although the premium received by the seller is fixed, the seller may sustain a loss well in excess of the amount of premium received. The seller will be liable for additional margin to maintain the position if the market moves unfavourably. The seller will also be exposed to the risk of the purchaser exercising the option and the seller will be obligated to either settle the option in cash or to acquire or deliver the underlying interest. If the option is on a future, the seller will acquire a position in a future with associated liabilities for margin (see the section on Leveraged Foreign Exchange, CFDs and Futures above). If the option is "covered" by the seller holding a corresponding position in the underlying interest or a future or another option, the risk may be reduced. If the option is not covered, the risk of loss can be unlimited.

Certain exchanges in some jurisdictions permit deferred payment of the option premium, exposing the purchaser to liability for margin payments not exceeding the amount of the premium. The purchaser is still subject to the risk of losing the premium and transaction costs. When the option is exercised or expires, the purchaser is responsible for any unpaid premium outstanding at that time.

OPTIONS

3. Variable Degree of Risk

Transactions in options carry a high degree of risk. Purchasers and sellers of options should familiarize themselves with the type of option (i.e., put or call) which they contemplate trading and the associated risks. You should calculate the extent to which the value of the options must increase for your position to become profitable, taking into account the premium and all transaction costs.

The purchaser of options may offset or exercise the options or allow the option to expire. The exercise of an option results either in a cash settlement or in the purchaser acquiring or delivering the underlying interest. If the option is on a future, the purchaser will acquire a futures position with associated liabilities for margin

4. Stock Exchange Markets

Transactions in securities will expose you to the volatility of the various stock exchange markets in which the shares, stocks, warrants, bonds, debentures, notes debts securities and other securities within the definition of "securities" under the Securities and Futures Act 2001 (collectively the "securities") are traded. In particular, the value of securities may experience downward movements and may under some circumstances even become valueless. Hence there is an inherent risk that losses rather than profits may be incurred as a result of buying or selling securities.

Saxo Capital Markets is entitled to act upon your instructions and you cannot assume that we will warn you if your instructions are ill-timed or inadvisable for any reason or if the instructions are likely to cause you loss. Owing to the volatility of the stock exchange markets, it may not be practicable for Saxo Capital Markets to contact you prior to any sale and/or purchase of securities pursuant to any agreement.

You will be exposed to risks of bad delivery of securities purchased. There are also risks involved in not registering purchased securities in your name, in the name of your nominee or custodian.

ADDITIONAL RISKS COMMON TO LEVERAGED FOREIGN EXCHANGE, CFD'S, FUTURES, OPTIONS AND SECURITIES

5. Terms and Conditions of Contracts

You should ask the corporation with which you conduct your transactions about the terms and conditions of the specific leveraged foreign exchange, CFD, futures contract or option transaction which you are trading and associated obligations (e.g. the circumstances under which you may become obligated to make or take delivery of the underlying interest of a futures contract and, in respect of options, expiration dates and restrictions on the time for exercise). Under certain circumstances the specifications of outstanding contracts (including the exercise price of an option) may be modified by the exchange or clearing house to reflect changes in the underlying interest.

6. Suspension or Restriction of Trading and Pricing Relationships

Market condition (e.g., illiquidity) and/or the operation of the rules of certain markets (e.g., the suspension of trading in any contract or contract month because of price limits or "circuit breakers") may increase the risk of loss by making it difficult or impossible to effect transactions or liquidate/offset positions. If you have sold options, this may increase the risk of loss.

Further, normal pricing relationships between the underlying interest and the futures contract, and the underlying interest and the option may not exist. This can occur when, for example, the futures contract underlying the option is subject to price limits while the option is not. The absence of an underlying reference price may make it difficult to judge "fair" value.

7. Deposited Cash and Property

You should familiarize yourself with the protections accorded money or other property you deposit for domestic and foreign transactions, particularly in the event of a firm insolvency or bankruptcy. The extent to which you may recover your money or property may be governed by specific legislation or local rules. In some jurisdictions property, which had been specifically identifiable as your own will be pro-rated in the same manner as cash for purposes of distribution in the event of a shortfall.

8. Commission and Other Charges

Before you begin to trade, you should obtain a clear explanation of all commission, fees and other charges

for which you will be liable. These charges will affect your net profit (if any) or increase your loss.

9. Transactions In Other Jurisdictions

Transactions on markets in other jurisdictions, including markets formally linked to a domestic market, may expose you to additional risk. Such markets may be subject to regulation, which may offer different or diminished investor protection. Your local regulatory authority will be unable to compel the enforcement of the rules of regulatory authorities or markets in other jurisdictions where your transactions have been effected. You should ask the firm with which you conduct your transactions for details about the types of redress available in both your home jurisdiction and other relevant jurisdictions before you start to trade.

10. Currency Risks

The profit or loss in transactions in foreign currency-denominated futures and options contracts (whether they are traded in your own or another jurisdiction) will be affected by fluctuations in currency rates where there is a need to convert from the currency denomination of the contract to another currency.

11. Trading Facilities

Most open-outcry and electronic trading facilities are supported by computer-based component systems for the order-routing, execution, matching, registration or clearing of trades. As with all facilities and systems, they are vulnerable to temporary disruption or failure. Your ability to recover certain losses may be subject to limits on liability imposed by one or more parties, namely the system provider, the market, the clearing house or member firms. Such limits may vary. You should ask the firm with which you deal for details in this respect.

12. Electronic Trading

Trading on an electronic trading system may differ not only from trading in an open-outcry market but also from trading on other electronic trading systems. If you undertake transactions on an electronic trading system, you will be exposed to risks associated with the system including the failure of hardware and software. The result of any system failure may be that your order is either not executed according to your instructions or is not executed at all.

13. Off-Exchange Transactions

In some jurisdictions, firms are permitted to effect off-exchange transactions. The firm with which you deal may be acting as your counterparty to the transaction. It may be difficult or impossible to liquidate an existing position, to assess the value, to determine a fair price or to assess the exposure to risk. For these reasons, these transactions may involve increased risks. Off-exchange transactions may be less regulated or subject to a separate regulatory regime. Before you undertake such transactions, you should familiarize yourself with applicable rules and attendant risks.
