

A low-angle photograph of a modern building with a complex, geometric glass facade. The building's surface is composed of numerous triangular and rectangular panels that create a dynamic, crystalline pattern. The sky is a deep blue with scattered white clouds. The overall composition is clean and professional, suitable for a financial report or presentation.

# Commitments of Traders: Bonds and stock indices

Speculative positioning covering the week ending  
February 18, 2020

Ole S. Hansen  
Strategy Team

# Bond futures, stock indices and VIX

\* DV01 = Dollar value of 1 basis point (Mio USD)

# Who is holding what across the U.S. yield curve?

# Fed Funds, Eurodollar and short duration bonds

# Long duration bonds

# Stock Index futures

# CBOE VIX Index (Non-commercial)

# What is the COT report?

- The **Commitments of Traders** report is issued by the US Commodity Futures Trading Commission (CFTC)
- It is released every Friday at 15:30 Eastern time with data from the week ending the previous Tuesday
- It breaks down the open interest in futures markets where 20 or more traders hold positions
- The **Traders in Financial Futures** report separates traders into the following categories:
  - Dealer/Intermediary; Asset Manager/Institutional; **Leveraged Funds** and other reportables
- Our focus in this report is the broader based non-commercial category which comprises all of the above. The non-commercial segment includes the below and is interesting for the mentioned reasons:
  - Hedge funds, money managers, commodity trading advisors (CTA), commodity pool operators (CPO), and unregistered funds
  - The strategies may involve taking outright positions or arbitrage within and across markets
  - They are likely to have tight stops and no underlying exposure that is being hedged
  - This makes them most reactive to changes in fundamental or technical price developments
  - It provides views about major trends but also helps to decipher when a reversal is looming
