SCM may take or refrain from taking any action whatsoever, and the Client shall do all things required by SCM in order to procure or ensure compliance with applicable laws.

2. RISK ACKNOWLEDGEMENT

- 2.1 The Client acknowledges, recognises and understands that:
- i. Margin Positions are highly speculative, may involve an extreme degree of risk, and are appropriate only for persons who accept risk of loss in excess of their Collateral with SCM;
 - ii. because of the low level of Collateral often required in Margin Positions, changes in the price of the underlying Instrument may result in significant losses, which may substantially exceed the Client's investment and Collateral with SCM;
 - iii. when the Client instructs or requests SCM to enter into any Contract or purchase any Instrument, any profit or loss on such Contract or Instrument will be entirely for the Client's own account and risk;
 - iv. unless it is otherwise specifically agreed, SCM shall not conduct any continuous monitoring of the transactions entered into by the Client neither automatically nor manually. Hence, SCM cannot be held responsible for transactions developing differently from what the Client might have presupposed and/or to the disadvantage of the Client;
 - v. any investments include risks, and the Client has received no assurance otherwise and no guarantees of profit or similar representations from SCM, any entity of the Saxo Bank Group, any Introducing Broker, or representatives hereof.

3. CLIENT CLASSIFICATION AND INVESTOR PROTECTION

- 3.1 In compliance with regulations to which SCM is subject, SCM classifies its Clients in three main categories: accredited investors, Retail Clients and clients who are foreign by virtue of not being citizens or residents of Singapore or a dependent of either of the foregoing.
- 3.2 SCM attaches different levels of regulatory protection to Clients within each category which are more specifically described and explained in SCM's Guide And Cautionary Note.

3.3 SCM offers its accredited investor Clients the possibility to request to be reclassified online and thus to increase the level of regulatory protection afforded. If an accredited investor Client requests to be treated as a Retail Client, such Client's scope of permitted trading/dealing may be narrowed.

3.4 Without detracting from 3.3 above, the Client acknowledges that the Services that SCM offers to Clients may depend on the client classification, and that all Services may therefore not be available to all types of Clients.

SERVICES AND TRADING

4. SERVICES

- 4.1 SCM provides a variety of Services which it is licensed under the SFA to provide. Unless otherwise specifically agreed in writing, all Services provided by SCM to Clients are subject to these Terms.
- 4.2 In relation to any Contract order or instruction for execution on a securities or futures market, SCM will effect the same as Agent to the Client even if as between itself and any Counterparty it is to be regarded as the Principal under the Contract or for whom the Counterparty executed and/or cleared the Contract. All such transactions in securities and futures are generally executed as straight through the relevant market for execution basis unless otherwise agreed or notified to the Client. The Client and SCM will otherwise enter into any Contracts as Principals but with SCM acting as "riskless" principal as further explained below. As "riskless" principal, SCM will permit the Client access via the Trading Platform to indicative bids and offers for such Contracts. None of such indicative bids or offers are binding on SCM in that no order from the Client is to be regarded as having been accepted until and unless SCM confirms its acceptance and the successful execution of the Client's order by way of SCM's securing of its hedge transaction with respect to the Client's order. Pending such confirmation either of the filling of the Client's order together with the

successful execution of its own corresponding hedge trade or its rejection, the Client's order will be irrevocable.

The communication of the Client's order for such principal to principal Contracts will generate an order from SCM for an equal and off-setting or hedge Contract with its Liquidity Provider(s) who, if SCM's order to them is accepted, will contract with SCM on the basis that as between SCM and them SCM are their sole principal. Correspondingly the Client's order will be deemed automatically filled only when SCM's own equal and off-setting or hedge transaction is filled. For the avoidance of doubt, the Client has neither contractual rights nor obligations to SCM's Liquidity Provider hedge counter-party with whom SCM contract for their off-setting or hedge transaction. To amplify - the relationship between the Client and SCM with respect to such a concluded principal to principal Contract (the "Transaction") is intended to be, in all cases a bi-lateral principal to principal transaction and strictly on a "Client beware" basis but with SCM expressly intended to be riskless principal in the transaction to the Client in the sense that (i) SCM's obligation to the Client with respect any Transaction is limited only to passing on to the Client the benefit of such rights as SCM may themselves actually have to enforce under their corresponding hedge Contract; and (ii) the Client recognising and accepting that SCM's obligation to perform on any such hedge Contract is dependent upon the Client's performance of the Client's obligations under the Transaction and hence the Client's liability to indemnify and keep SCM harmless against any default in the Client's performance leading to a default of SCM's performance.

Notwithstanding (ii) in the preceding sentence, SCM are entitled where SCM determine in good faith the same to be in SCM's interest to proceed with performing under their hedge Contract notwithstanding the Client's default under the relevant Transaction without

prejudice to SCM's right to damages and indemnity from the Client.

- 4.3 SCM shall be entitled to consider the Client as Principal in relation to any Contract even if the Client in its arrangements with any third party acts as Agent on behalf of such third party, regardless of whether the Client has identified the arrangement and/or the third party to SCM.
- 4.4 Notwithstanding any other provision of these Terms, in providing its Services, SCM is entitled to take any action considered necessary and reasonable to ensure compliance with the Market Rules, decisions by and agreements with Regulated Markets, other markets, Liquidity Providers or public authorities and/or applicable law.

5. ADVICE AND RECOMMENDATIONS

- 5.1 SCM provides execution-only services to the Client unless otherwise agreed or specified by SCM. SCM accepts no obligation to provide individual advice, surveillance, information or recommendations in respect of any Instrument or Service.
- 5.2 If SCM provides generally circulating advice, information or recommendations to the Client, SCM makes no representation, warranty or guarantee as to, and shall not be responsible for, the profitability, accuracy or completeness of such advice, information or recommendations, unless SCM has acted grossly negligently and is liable pursuant to these Terms. All generally circulating advice comes with and is subject to the disclaimer accompanying same.
- 5.3 SCM does not provide any advice to the Client on any tax related matters. SCM encourages the Client to obtain independent advice from its financial advisor, auditor and/or legal counsel with respect to tax implications of the respective Services.

5.4 The Client acknowledges, recognizes and accepts that (i) any recommendation and any information communicated by SCM does not constitute an offer to enter into a Contract or an offer to buy or sell or the solicitation of an offer to buy or sell any Instrument, and (ii) such recommendation and information, although based upon information from sources believed by SCM to be reliable, may be based solely on a broker's opinion, and (iii) any information communicated may be incomplete and may be unverified and/or unverifiable.

6. ORDERS AND INSTRUCTIONS

6.1 The Client may provide SCM with instructions and orders in the form and using the media determined by SCM from time to time. If the Client submits an order by other means than the Trading Platform, SCM manually verifies the basis of the relevant order prior to processing, and this may likely result in an extended processing time. Placement of orders by telephone may be subject to higher commissions than placement of orders via the Trading Platform.

6.2 The Client's instructions and orders are binding on the Client when received by SCM. If the Client wishes to withdraw an instruction or order to SCM that has not yet been executed, the Client may contact SCM and request that the order be cancelled, but SCM is under no obligation to accept the cancellation of such instruction or order. A request for cancellation of an order can be made via the Trading Platform or by calling SCM Sales Trading, except that requests concerning cancellation of orders, made when the Margin Requirement is not fulfilled, can only be made to SCM Sales Trading. An instruction or order is not cancelled until the Client has received a written confirmation of the cancellation from SCM.

6.3 No instruction or order from a Client is binding on SCM until it has been accepted. No binding Contract or other transaction is entered into until it has been recorded as executed by SCM

and confirmed by SCM to the Client through the Settlement/Trade Confirmation, subject to Clause 12. If an Event of Default occurs, SCM reserves the right to calculate the net amount owed by either party in accordance with these Terms regardless of any Settlement/Trade Confirmation provided.

6.4 Only the Settlement/Trade Confirmation made available to the Client constitutes SCM's confirmation of the execution of a Contract or order. Confirmation by the Trading Platform itself, when the Client transmits instructions via the Trading Platform, does not constitute confirmation of the execution of a Contract or order.

6.5 In the event that the Client believes to have placed an instruction or order, but the Client has not received a Settlement/Trade Confirmation, the Client must contact SCM immediately. In the absence of such immediate notice from the Client, the order, transaction or Contract may at SCM's sole discretion be deemed non-existent even if received by SCM.

6.6 SCM will handle orders and instructions in accordance with its Order Execution Policy and applicable law. If SCM believes that it is not reasonably practicable to act upon instructions or orders from a Client within reasonable time, SCM (i) may defer acting upon that instruction or order until it is, in SCM's reasonable opinion, practicable to do so, or (ii) notify the Client that SCM will not act upon such instruction or order. SCM may cancel any order for an Instrument if the specific Instrument is suspended from trading or transferred to the observation list on the relevant market.

6.7 SCM supports different order types which are described in, and executed in accordance with, its Order Execution Policy. For the avoidance of doubt, Limit Orders and Stop Orders are not guaranteed executable at the price or amount specified by the Client, but will be executed in accordance with SCM's Order Execution Policy in the absence of an Event of Default of the Client.

- 6.8 The Client shall be responsible for (i) all orders and instructions provided, (ii) the accuracy of all information sent via the Internet in the Client's name and (iii) passwords and any other personal identification means implemented to identify the Client.
- 6.9 SCM may refuse to act upon any instruction from a client or any person authorised by the Client if SCM reasonably believes that the disposal, pursuant to the instruction submitted, will be in violation of e.g. Market Rules, usual market practice, and/or applicable law, including, but not limited to, legislation on money laundering and insider trading. Further, SCM may refuse to act if such disposal, in SCM's sole discretion, will put the Client's and/or SCM's economic solidity at risk.

7. DEALINGS AND COMMUNICATIONS

- 7.1 The Trading Platform provides the primary medium for self-execution of Contracts by the Client. The Client acknowledges and accepts that details regarding Accounts, Trade Confirmations, margin notifications and messages from SCM to the Client will be primarily made available to the Client via the Trading Platform.
- 7.2 From the Trading Platform, the Client can print reports on trading activities, Account balances, Account Statements and Account Summaries.
- 7.3 The Account Summary and the Account Statement are normally updated during SCM's opening hours. The Client accepts not to receive any Account Statements or Account Summaries in printed form other than upon specific request.
- 7.4 Any notice or any other communication to be provided by SCM to the Client, including Account Statements and Settlement/Trade Confirmations, may at SCM's discretion be sent to the Client in electronic form via e-mail or by display on the Client's Account Summary on the Trading Platform. The Client is obliged to provide SCM with an e-mail address for this purpose. An e-mail is considered received by the Client when sent from SCM. SCM is not responsible for any delay, alteration, redirection or any other modification an e-mail or other message may undergo after transmission from SCM. A message on the Client's account on the Trading Platform is considered received by the Client when SCM has placed the message on the Trading Platform. It is the responsibility of the Client to ensure that the Client's software and hardware setup does not prevent the Client from receiving e-mails or accessing the Trading Platform.
- 7.5 The Client is obliged to verify the contents of any communication, notice, statement or document, from SCM whether sent electronically or in print. Such content, shall in the absence of manifest error be deemed conclusive evidence, unless the Client notifies SCM in writing to the contrary immediately after having received such communication, notice, statement or document.
- 7.6 In order to protect the interests of the Client and/or SCM, the Client shall promptly carry out any action, which SCM may reasonably request, e.g. in relation to Corporate Actions. If the Client does not carry out such an action promptly, SCM may at its sole discretion take such steps, at the Client's cost, as SCM considers necessary or desirable for its own protection or the protection of the Client. This provision is similarly applicable in situations where SCM is unable to obtain contact with the Client.
- 7.7 SCM may (but is not obliged to) require confirmation in such form as SCM may reasonably request if an instruction is to close an Account or remit money due to the Client or if it appears to SCM that such confirmation is necessary or desirable.
- 7.8 Clients shall be able to communicate with SCM in English or any other language as SCM may offer from time to time. SCM may communicate with the Client in English or any other language agreed between the Parties.

8. POWER OF ATTORNEY

- 8.1 If the Client wants to allow a third party to trade on the Client's Account, the Client shall issue a separate written authorization to the relevant third party. In such instance, it is a requirement that one of SCM's power of attorney forms is used. The issue of the power of attorney must be approved by SCM. A personal user ID and password will be provided by SCM to the approved holder of the power of attorney. SCM can only undertake to register one power of attorney per Client. SCM must be informed in writing if the Client wishes to revoke such power of attorney, to change the extent of the power of attorney, or grant a power of attorney to a different person.
- 8.2 SCM shall be entitled to receive instructions from any person authorised by the Client and to rely on any power of attorney afforded to any person who appears authorised.
- 8.3 The Client is accountable to SCM for losses that SCM may suffer as a result of instructions from a person who has explicit or tacit power of attorney to instruct SCM on behalf of the Client.

9. USE OF THE TRADING PLATFORM

- 9.1 The technical requirements, which the Client's IT-equipment, operating system, internet connection etc. shall comply with in order that the same may access the Trading System(s) provided to the Client, are described on SCM's website <http://www.home.saxo.sg>.
- 9.2 The Client shall enter his/her user ID and password when logging on to the Trading Platform. The Client shall memorize the password. Entering an incorrect password five times in a row will automatically terminate the connection and block the user ID. SCM shall inform the Client of a termination/blocking and the reasons for it, where possible, before the termination/blocking, and if this is not possible, immediately thereafter, unless giving such information will compromise objectively justified security reasons.

- 9.3 If the Client becomes aware, or suspects, any unauthorized use of the Trading Platform and/or that the Client's password has been misappropriated by a third party, the Client shall immediately notify SCM, via telephone +65 6303 7888, to block the password, Account and Trading Platform. Blocking the Trading Platform prevents other parties from accessing it. Open orders and positions placed on the Trading Platform before any blocking will not be affected hereby, unless the Client specifically requests otherwise. Upon the blocking of a password, the Client may order a new password.
- 9.4 The Client is obliged to keep passwords secret and ensure that third parties do not obtain access to the Client's Account(s) or Trading Platform(s).
- 9.5 Subject to Clause 9.7 and mandatory applicable law, the Client is liable to SCM for orders and Contracts placed or entered into by use of the Client's password, even if such use proves wrongful, and for any other unauthorised use.
- 9.6 The right to use the Trading Platform is strictly personal, and the Client shall not allow any other parties to use the Client's user ID and/or password.
- 9.7 The Client shall not be liable for any abuse or other unauthorized use of the Trading Platform occurring after the Client has notified SCM pursuant to Clause 9.3 and SCM has had reasonable time to act thereon.

10. TRANSFER OF FUNDS

- 10.1 The Client understands and accepts that in order to secure the identity of the transferor/Client, SCM only allows transfers of funds to and from the Client's Account(s) to and from the Client's own account(s) in other banks. This entails that SCM must receive sufficient information about the transfer from the transferring bank to ensure the identification of the relevant Client and relevant Account on which the funds shall be booked. Therefore, the Client understands and accepts that SCM is only able to place and book any transferred funds, if SCM is able to properly identify the Client and the Account on which the funds shall be booked.

- 10.2 For incoming transfers of currency, the funds are booked and at disposal on the Client's Account without undue delay after SCM has received the funds and in accordance with applicable law, subject to the instruction being complete and correct. The funds will not be taken into account for purposes of the Client's Margin Requirement before the funds are booked and at disposal on the Client's Account.
- 10.3 When the Client transfers funds between two Accounts held with SCM, the funds are at disposal on the receiving Account on the day of the transfer.
- 10.4 Payments into the Client's Account are deposited by SCM on the condition that SCM receives the amount in question. This shall apply irrespective of whether it has been explicitly stated in receipts or other notices of, or requests for, payment.
- 10.5 The Client understands and accepts that the Client must always supply SCM with complete and correct payment details when providing payment instructions, including IBAN number and the BIC code where relevant. When providing payment instructions, the Client shall use the form available on SCM's website <http://www.home.saxo.sg>. In the absence of the said information, SCM is not liable for the completion of the transfer, nor for any delays or extra costs arising from the absence of e.g. the IBAN number and/or BIC code.
- 10.6 The Client acknowledges that SCM cannot be held liable for the number of days passing between the transfer of funds by the sending bank until the funds are received by SCM and booked on the Client's Account.
- 10.7 The Client acknowledges that SCM cannot be held liable for the number of days passing between the transfer of funds from SCM until the funds are booked on the account with the receiving bank.
- 10.8 The Client understands and accepts that the Client is liable for any costs arising from any delays caused by and any errors made by the receiving financial institution or its intermediate financial institutions.

- 10.9 The Client is made aware that Exceptional Market Conditions, Force Majeure Events and similar events can cause the booking of funds to be delayed. SCM is not liable for such delays.
- 10.10 Electronic transfer requests received via the Trading Platform are generally processed within 24 hours.
- 10.11 If transfer requests are received in any other format than described in Clause 10.5, the transfer request will generally be processed within 2 to 5 Business Days.
- 10.12 The Client understands and accepts that the Client is liable for and must carry all costs applied by other banks used for routing the funds to the Client's account with the beneficiary bank.

11. POSITIONS - REFUSAL, CLOSE-OUT AND ROLL

- 11.1 The Client accepts and acknowledges that SCM shall have the right (in addition to any other rights SCM may have under these Terms, or under Singapore law in general) to refuse orders to establish new or larger positions or to buy or sell Instruments. SCM will inform the Client as soon as practicable regarding such refused orders and the reason for the refusal.
- 11.2 The Client accepts and acknowledges that SCM shall have the right (in addition to any other rights SCM may have under these Terms, or under Singapore law in general) to reduce the size of the Client's open positions (net or gross). SCM will inform the Client as soon as practicable regarding such reduction and the reason hereof. Situations where SCM may exercise the right to reduce the size of the Client's open positions include, but are not limited to, situations where:
- SCM has reason to believe that the Client may be in possession of Inside Information;
 - SCM considers that there are abnormal trading conditions.
 - the value of the Client's Collateral (as determined by SCM in accordance with Clause 24.7) falls below the Margin Requirement;

- iv. the Client has a negative cash balance on any Account; or
- v. an Exceptional Market Condition occurs or is likely to occur.

11.3 Unrealized losses of Euro 100,000 (or equivalent) or more in Margin Positions can potentially cause unnecessary risks to the Client and SCM. The Client accepts and acknowledges that if unrealized losses on Margin Positions in aggregate exceed Euro 100,000 (or equivalent), SCM has with 8 Business Days' written notice to the Client the right, but not the obligation to:

- i. Initiate netting of positions in accordance with the FIFO Principle and cancel all or part of the Client's Related Orders, and/or
- ii. Close all or part of opposite Margin Positions at the prevailing market rate (the Closing Rate) and opening new similar positions at the Closing Rate, and/or
- iii. Close all or part of the Margin Positions by executing directly opposite trades,

thereby realizing the losses suffered. The unrealized loss is calculated as the sum of all the unrealized losses deducted from the unrealized profits of all the Client's Accounts with SCM.

11.4 When the Client instructs SCM to enter into a position opposite to one or more of the Client's existing open positions, SCM will close out the opposite position in accordance with the FIFO Principle, unless the existing position has Related Orders or otherwise agreed between SCM and the Client. However, even where there is a Related Order to an existing position, SCM will wholly or partially close out the existing position in accordance with the FIFO Principle if SCM can only partially fill an opposite order. Any Related Order to the existing position will thereby be cancelled, but the Client can place new Related Orders in relation to any remainder of such existing positions.

11.5 Subject to Clause 11.4, the Client acknowledges that SCM has the right, but not the obligation, to close opposite positions, wholly or partly, regardless of whether the opposite positions are held on the same Account or separate Accounts.

11.6 The Client is specifically made aware that unless closed manually, FX positions and FX commodities may be rolled over on a continuous basis and the Client will thereby incur a cost for such rollover in relation to each position.

12. PRICES, ERRORS AND CHANGES IN CONDITIONS

12.1 If the Client makes any payment which is subject to any currency fluctuations, withholding or deduction, the Client shall pay to SCM an additional amount to ensure that the total amount actually received by SCM is equal to the full amount SCM would have received had no currency fluctuations, withholding or deduction been made.

12.2 SCM may offer real time tradable prices to the Client. Due to delayed transmission, the price offered by SCM may have changed before an order or instruction from the Client is received by SCM. SCM shall be entitled to change the price on which the Client's order or instruction is executed to the market value at the time at which the order from the Client is received or executed.

12.3 Prices offered by SCM regarding the sale, purchase or exercise of Listed Derivatives reflect the price of the relevant Reference Derivative. Due to the period from the Client's acceptance or instruction regarding an Listed Derivative until the execution of the relevant Reference Derivative on the Regulated Market by the Listed Derivative Counterparty, another third party or SCM (as the case may be), the price as listed on the Trading Platform is subject to change, in order for the Listed Derivative to reflect the price of the relevant Reference Derivative at the time of its execution or exercise (as applicable).

12.4 (i) In the event that a price quoted by SCM or at which any Contract or other transaction is entered into (including where confirmed in a Settlement/Trade Confirmation) does not reflect the market price (e.g. due to market liquidity, announcements affecting the market,

misfeeds from providers of prices, quotes from Liquidity Providers, or suspension of trading) (a "Misquoted Price") or (ii) if an Exceptional Market Condition occurs or is likely to occur, SCM may in its sole discretion either (a) refrain from executing, or cancel, any Contract or any purchase or sale of any Instrument which is, or purports to have been, entered into at the Misquoted Price, (b) execute the Contract or the sale or purchase of any Instrument at the Misquoted Price or the price which in SCM's reasonable opinion reflects the market price, or (c) change any Contract or purchase or sale of any Instrument already executed to the price which in SCM's reasonable opinion reflects the market price.

12.5 If SCM can (i) document the existence of errors in prices, Commissions and Charges, other commissions and/or in the Trading Platform at the time of the conclusion of the Contract or order and (ii) render probable that, based on the Client's trading strategy or other behaviour, the Client deliberately and/or systematically has exploited or attempted to exploit such errors, SCM is entitled to take one or more of the following countermeasures:

- i. Adjust the price spreads and/or liquidity available to the Client;
- ii. Restrict the Client's access to streaming, instantly tradable quotes, including providing manual quotation only;
- iii. Retrieve from the Client's Account any historic trading profits that have been gained through such behaviour at any time during the relationship between the Client and SCM; and/or
- iv. Terminate the relationship between the Client and SCM immediately by giving written notice.

12.6 If (i) the Regulated Market, on which a Reference Derivative is traded, and/or (ii) the Listed Derivative Counterparty takes any action which affects the Reference Derivative or the contract SCM has entered into with the Listed Derivative Counterparty, then SCM may take any action with regard to the relevant Listed Derivative which SCM in its sole discretion considers desirable or appropriate to (a) match the action taken by the Regulated Market and/or

Listed Derivative Counterparty or (b) mitigate any loss which is or may be incurred by it as a result of such action.

12.7 The Client acknowledges, recognizes and understands that:

- i. The execution of all transactions in Instruments which are traded on Regulated Markets, and many Contracts, will be effected subject to, and in accordance with, Market Rules;
- ii. Market Rules usually contain far reaching powers for authorities and market places in an emergency or otherwise undesirable situation;
- iii. If any Regulated Market or clearing house takes any action which affects a transaction in Instruments or a Contract, directly or indirectly, including any Listed Derivative, then SCM is entitled to take any action which SCM in its sole discretion considers desirable or appropriate in relation to any Contract or transaction with any Client;
- iv. Where any transaction is effected by SCM as Agent for the Client, delivery or payment (as appropriate) by the other party to the transaction shall be at the Client's entire risk; and
- v. SCM's obligation to deliver Instruments to the Client or to account to the Client or any other person on the Client's behalf for the proceeds from a sale of Instruments, shall be conditional upon receipt by SCM of deliverable documents or sale proceeds (as appropriate) from the other party or parties to the transaction.

13. AGGREGATION AND SPLIT

13.1 SCM is entitled to aggregate the Client's orders with SCM's own orders, orders of any member of the Saxo Bank Group and/or persons connected with SCM, including employees and other clients.

13.2 SCM may split the Client's orders when executing these.

- 13.3 Orders will only be aggregated or split if SCM reasonably believes it to be in the best interest of Clients. On some occasions, aggregation or split of the Client's order may result in the Client obtaining a less favourable price than if the Client's orders had been executed without being aggregated with other orders or split, which the Client accepts.

14. HANDLING OF CLIENTS USING JOINT ACCOUNTS

- 14.1 In relation to Joint Accounts,
- i. the liabilities of each of the Joint Account Clients on a Joint Account shall be direct, joint and several;
 - ii. any notice or other communication provided by SCM to one Joint Account Client shall be deemed to have been provided to all Joint Account Clients of the relevant Joint Account; and
 - iii. if an Event of Default has occurred in respect of one Joint Account Client, then such Event of Default shall be deemed to have occurred in respect of all the Joint Account Clients of that specific Joint Account and all of the rights of SCM, including under Clauses 24-26 and 28 shall apply in relation to all the Joint Account Clients of the relevant Joint Account.

15. USE OF LIQUIDITY PROVIDERS FOR EXECUTING ORDERS OR CONTRACTS

- 15.1 For the execution of an order or Contract on a Regulated Market where SCM, as between itself and the Client, acts as the Client's agent, of which SCM is not a member, or for the execution of any other Client instruction, SCM may, at SCM's own discretion, select any Liquidity Provider as its correspondent executing and/or clearing broker to carry out such execution.
- 15.2 SCM shall not be responsible for errors committed by such Liquidity Providers unless it is proven that SCM has not acted with sufficient care when selecting the Liquidity

Provider as its correspondent executing and/or clearing broker.

16. INTRODUCING BROKERS

- 16.1 The Client may have appointed or been referred to SCM by an Introducing Broker. SCM shall not be responsible for any agreement made between the Client and the Client's Introducing Broker. The Client acknowledges that any such Introducing Broker will either be acting as an independent intermediary or an Agent for the Client and that no such Introducing Broker shall be authorized to make any representations concerning SCM or SCM's Services.
- 16.2 The Client is specifically made aware that the Client's agreement with its Introducing Broker may result in additional costs as SCM may pay fees or commission to such person, which will be disclosed to the Client.
- 16.3 The Client is also specifically made aware that the Client's agreement with its Introducing Broker may result in additional costs for the Client as the Introducing Broker may deduct commissions and fees as well as price or interest/financing rate adjustments for any trade conducted on or allocated to the Client's Account either by the Introducing Broker or the Client.
- 16.4 If the Introducing Broker undertakes any deductions from the Client's Account according to any agreement between the Client and the Introducing Broker, SCM has no responsibility as to the existence or validity of such an agreement.
- 16.5 If the Client wants an Introducing Broker to manage the Client's Account(s), the Client shall provide a power of attorney to SCM. SCM shall have no responsibility or liability to the Client for following the instructions given by an Introducing Broker under any power of attorney or for any other actions or omissions of any Introducing Broker.
- 16.6 SCM is under no obligation to supervise or review any payment instructions or any other acts, including, but not limited to, the trading, of the Introducing Broker.

- 16.7 SCM is not responsible for the size or reasonableness of any commissions and/or fees, as well as any price or interest rate, paid by the Client to the Introducing Broker.

17. SETTLEMENT AND DELIVERY OF INSTRUMENTS

- 17.1 The Client shall be obliged to promptly make any payment or deliver any Instrument under a Contract in accordance with (i) the terms of that Contract and (ii) any instructions given by SCM for the purpose of enabling SCM to perform its obligations under any corresponding contract entered into between SCM and a Liquidity Provider, including Listed Derivative Counterparties.
- 17.2 If the Client does not provide SCM with notice of its intention to exercise a Contract, which requires an instruction from the Client, at the time stipulated by SCM, SCM may assume that the Client has given up the Contract, subject to Clause 17.4. If the Client wishes to exercise such a Contract, the Client must provide SCM with notice thereof in reasonable time (and within applicable cut-off times) for SCM to exercise the corresponding right under any Contract, including any Contract entered into by SCM with an Listed Derivative Counterparty in relation to Listed Derivatives.
- 17.3 When a Client purchases Custody Securities, the Client only obtains unconditional title of right to the Custody Securities provided the final payment to SCM is made on the settlement date. Until final payment is made, SCM reserves the right to the Custody Securities being purchased by the Client, including its
- 17.4 Listed Options, with put or call options as Reference Options, that close one Tick or more In the Money on the last trading day, will automatically be exercised, regardless of whether the Client has purchased or sold the Listed Option. The Client cannot instruct SCM to refrain from exercising Listed Options that are In the Money at expiry, and cannot at any time instruct SCM to exercise Listed Options that are Out of the Money.

- 17.5 When SCM is notified by its Liquidity Providers that one or more short option positions have been exercised in relation to short Listed Options, SCM will apply a random method of allocating the exercised positions among the relevant Clients. SCM's allocation method randomly selects short Listed Options among all SCM's relevant Clients, including Listed Options opened immediately prior to the allocation. All short Listed Options are subject to the exercising of any rights and allocation at any time. When a short Listed Option is allocated, the relevant Client is obliged to, within the applicable time of delivery, deliver (i) the Instrument or relevant amount of cash in case of a short call Listed Option and (ii) the relevant amount of cash in case of a short put Listed Option, to effect settlement.

- 17.6 Settlement of Listed Options shall correspond to the settlement of the relevant Reference Option in accordance with the applicable Market Rules and terms and conditions, and
- i. for Listed Options with a cash settled option as Reference Option, final settlement requires payment of the cash difference between the value of the Reference Option and the strike price;
 - ii. for Listed Options with physically settled options as Reference Options, the Listed Options will settle into physically settled options between SCM and the Client;
 - iii. a Listed Option, which has an option on a future as a Reference Option, will settle into a future, between SCM and the Client, which matches the relevant future and which is acquired at the strike price;
 - iv. SCM will only allow the Client to trade Listed Options which have an option on a future, with physical delivery, as a Reference Option, if the Listed Option expires before the relevant future; and
 - v. SCM will require the Client to close any Listed Derivative with physical delivery of commodities before it can be exercised or is completed, as SCM does not support physical delivery of commodities.

18. DELEGATED TRADE REPORTING

- 18.1 Unless otherwise agreed, SCM will on behalf of the Client report or cause to be reported the entry into, modification and termination of all derivative transactions, between SCM and the Client or between SCM (acting as between SCM and the Client as the Client's agent) and any Liquidity Provider, to a Trade Repository (Delegated Trade Reporting) as required by relevant laws and regulations.
- 18.2 Correct performance of Delegated Trade Reporting is subject to the Client timely providing SCM with the Client's Legal Entity Identifier code (LEI code) and such other information, as SCM requires from time-to-time.
- 18.3 Notwithstanding Delegated Trade Reporting performed by SCM, the Client remains legally responsible for reporting its own transactions. The Client is encouraged to request the Trade Repository for access to view all derivative transactions reported by SCM under the Client's LEI code. The Client must notify SCM immediately if the Client believes there are any inaccuracies in such reports.
- 18.4 The Client accepts and acknowledges that SCM is not in breach of any restrictions on disclosure of information imposed by any agreement or by any legislative, regulatory or administrative provisions when performing Delegated Trade Reporting.
- 18.5 Any loss or damage the Client may suffer as a consequence of Delegated Trade Reporting is subject to the terms and conditions of these Terms including, but not limited to, the general liability limitation and governing law in Clauses 29 and 36. SCM is under no circumstances, responsible for indirect loss or damage.
- 18.6 The Client can at any time, by giving notice to SCM, choose to discontinue Delegated Trade Reporting. SCM may discontinue Delegated Trade Reporting by giving not less than three months prior written notice to the Client.

- 18.7 No charge is currently levied by SCM in connection with Delegated Trade Reporting. However, SCM reserves the right to charge a fee for Delegated Trade Reporting and may exercise its right to do so by giving no less than two months' notice to the Client.

Custody Services**19. GENERAL PROVISIONS**

- 19.1 SCM may hold Custody Securities in custody on behalf of the Client. This Clause 19 contains the terms and conditions that apply specifically to SCM's custody services.
- 19.2 In order to open a custody account with SCM, the Client must have an Account with Saxo to which the revenue from the custody account is credited and any custody fees etc. may be debited.
- 19.3 When the Client deposits or transfers Custody Securities to its custody account, SCM does not check for any deficiencies, including insufficient title and authenticity of the Custody Securities.
- 19.4 If any kind of encumbrances, security interests or other rights to Custody Securities, which are provided as Collateral for Contracts or Margin Positions entered into by the Client with SCM, are registered, SCM will no longer include such Custody Securities in the calculation of the satisfaction of the Margin Requirement applicable to the Client (but such Custody Securities will still form part of the Collateral). SCM reserves the right to reject any pledge, attachment or other encumbrance over any Custody Securities that are pledged in favour of SCM.
- 19.5 Unless otherwise agreed, dividend paid on shares held in a custody account may be paid to the Client less any applicable default withholding tax. SCM is not obliged to or liable for claiming back any withheld tax unless otherwise agreed by SCM and the Client.

19.6 The Client should expect the dividend of Custody Securities to be credited to the Client's Account after it is made available to SCM. The dividend is credited to the Client's Account on the condition that SCM receives the relevant amount from the issuer, external professional provider, depository or custodian. If SCM does not receive this amount SCM is entitled to reverse any amount deposited to the Client's Account. This applies whether or not it is expressly stated in the Account Statement or the notification of the deposit.

19.7 SCM will not inform the Client about any ordinary or extraordinary general meeting or any extraordinary information communicated by the issuer. Unless otherwise specifically agreed the Client will not be entitled to vote at the shareholders' general meetings.

19.8 Both SCM and the Client as custody account holder are subject to the laws and practices of the home countries of the issuers of the Client's Custody Securities and SCM's external professional providers, depositories or custodians. SCM may be required under such laws and practices to e.g. report the name and the address of the Client, as well as the size, composition and returns on the Client's portfolio to foreign authorities and companies.

19.9 Notwithstanding any other provisions in these Terms or any arrangement or agreement between the Client and SCM, SCM shall not be liable to the Client for the return of the Client's assets which may be or may have been placed by SCM with any clearing institution, custodian, nominee, agent, bank or financial institution, in the event of the Insolvency of such clearing institution, custodian, nominee, agent, bank or financial institution. For purposes of this Clause 19.9, "Insolvency" shall mean any action, legal proceeding or other procedure or any step which is taken in relation to the suspension of payments, a moratorium of any indebtedness, winding-up, dissolution, administration, judicial management, reorganization (by way of voluntary arrangement, scheme of arrangement or otherwise) of such clearing institution, custodian, nominee, agent, bank or financial institution, a composition, compromise or

arrangement with any creditor of such clearing institution, custodian, nominee, agent, bank or financial institution, or the appointment of a trustee in bankruptcy, liquidator, judicial manager, receiver, trustee or other similar official for any part of the property, revenues or undertaking of such clearing institution, custodian, nominee, agent, bank or financial institution, or enforcement of any security over any assets of such clearing institution, custodian, nominee, agent, bank or financial institution.

19.10 In the event there remain any moneys and/or assets of the Client held by SCM or any custodian for and on behalf of the Client which is unclaimed by the Client six years after the Client's last trading activity on the Account and SCM determines in good faith that it is not able to trace the Client, the Client agrees that all moneys and/or assets then standing to the credit of the Client or otherwise held by SCM or the custodian, together with any property as may from time to time continue to accrue to said moneys and/or assets (whether by way of dividends, interest or otherwise), may forthwith be appropriated by SCM to itself to utilize in any manner SCM so wishes for its own benefit. The Client thereafter shall have no right whatsoever to claim such moneys and/or assets (and any other accrued interests, etc.), the Client being deemed to have waived and abandoned all its rights to such moneys and/or assets (and any other accrued interests, etc.) in favor of SCM.

20. CUSTODY SECURITIES HELD IN OMNIBUS ACCOUNTS

20.1 By accepting these Terms and without prejudice to its rights of commingling as provided for in the Securities and Futures (Licensing and Conduct of Business) Regulations, the Client consents to the fact that SCM keeps the Client's moneys and assets in omnibus custody accounts, in Singapore or abroad, together with assets belonging to other Clients of SCM. SCM shall keep a register clearly specifying

the individual clients' right of ownership to the assets registered. In the event of SCM's default, the Client shall, based on the register but subject to relevant laws applicable to the relevant omnibus account(s) as so established and maintained, be entitled to withdraw the Client's assets from the omnibus custody account if there is no pre-existing dispute concerning the Client's right of ownership. The Client accepts that such assets are not registered with the relevant clearing institution or custodian in the Client's name but in SCM's name on behalf of Clients. Consequently, the Client will not be individually or personally entitled to compensation for errors committed by the relevant clearing organisation, if any. The Client further waives the right to any interest, or any returns on any investment of moneys received that may accrue on such custody accounts. Operationally, omnibus custody accounts are used for registration of multiple Clients' Custody Securities in the name of SCM or any of its agents instead of the Client's name, with the relevant clearing institution or custodian. Thus, as previously noted, the Client is not individually or personally entitled to compensation for any error made by the relevant clearing institution. SCM maintains a register clearly stating the individual Client's ownership to the Custody Securities kept in the omnibus custody account. Any foreign Custody Securities, which are not registered in a separate custody account, will be kept in omnibus custody accounts with SCM or an external professional provider, depositary or custodian appointed by SCM, and the external professional provider, depositary, or custodian will be responsible for claiming and collecting interest payment, dividends, income and other rights belonging to the Client. SCM is not liable whatsoever for any disposition or omission or insolvency of an external professional provider, depositary, or custodian and cannot be made liable by the Client for any loss directly or indirectly owing to the action or omission or insolvency mentioned above. The Client is to the same extent as SCM subject to the current laws and common practices applying to the external professional provider, depositary, or custodian and its general terms and conditions of business.

20.2 In case specifically of bankruptcy of SCM, each Client is, on the basis of the rights registered for that person, entitled to claim the Client's Custody Securities from the relevant omnibus custody account, provided there is no current dispute regarding the Client's ownership of the Custody Securities. In case of bankruptcy of SCM, of an external professional provider, depositary, or custodian, SCM may withdraw the Custody Securities from the omnibus custody account on behalf of any Client who SCM, according to the register, has recorded as owner of the relevant Custody Securities.

20.3 Due to the omnibus custody structure, trades are executed and held in custody in the name of SCM, not in the name of any one Client. As the omnibus account is maintained under an entity incorporated in Singapore, withholding taxes will be deducted at rates applicable to Singapore by our custodian at the omnibus level (and not at the individual client level) and the same rate will be applied downstream to all clients irrespective of their country of tax residency.

Clients, particularly non-residents of Singapore, should seek independent advice on the tax implications arising from the foregoing and take all necessary action in accordance with the tax laws of their country of tax residency. All Clients are solely responsible for any and all tax obligations including any tax reclaim in connection with subscribing for, buying and/or selling or otherwise trading in any financial products via the Trading Platform with SCM as carrying broker.

21. CORPORATE ACTIONS

21.1 A rights issue is when an existing stockholder is offered a number of new shares proportional to their holding at a specified price for subscription by a specified date. These new shares may be renounceable (tradable) or non-renounceable.

If the Client is holding a stock for which there is a right issue the Client will receive the rights and have the opportunity to subscribe for new stocks, ignore the rights or sell the rights, if possible.

In order to prevent renounceable rights from becoming worthless when they expire, if the Client by the Instruction Deadline has not instructed SCM, SCM may, but is not required to, sell the rights (if possible) on behalf of the Client before the expiry of the rights. The proceeds from a sale of rights will be deducted the standard commission of the Account.

If the rights are non-renounceable, they will, if not exercised, be worthless at expiry.

- 21.2 SCM will notify the Client about conversions of convertible bonds held in custody with SCM, provided that SCM has been made aware of such conversions and can notify the Client within the stipulated deadlines. Such notification will be for information only and will not be a recommendation. Within the deadline set by SCM, the Client must inform SCM whether the Client wants to (i) convert the bonds into shares or (ii) collect the proceeds from the bonds at maturity. If SCM does not receive instructions from the Client within the deadline set by SCM, the convertible bonds will be allowed either to mature or to wait for a subsequent offer or conversion.

In case of other Corporate Actions, SCM will, to the extent required, seek to obtain instructions from the Client and will otherwise seek to handle such Corporate Actions in the best interest of the Client to the extent that time and operational procedures will allow. SCM will have no liability for anything done or not done in the discretion of SCM acting in good faith. Special local rules may apply to certain Corporate Actions.

- 21.3 The Client is made aware and acknowledges that in voluntary Corporate Action where the alternative to a cash settlement is the settlement in a security that is not supported by SCM, the Client will not have the option to choose, but will be given the cash settlement.
- 21.4 It is standard practice for depositary receipts to charge an annual administration fee per share depending on the issuing depositary bank. The intent of the fee is to cover costs for the banks that take on the operational processes necessary to issue and trade the depositary receipt line. Typically, the fee is deducted when dividend payments are made, however, in case

the depositary receipts do not pay a dividend or did not include the custodial fee in their dividend events, the fee will be administered through fee-only events.

The dividend fee is stipulated in the deposit agreement between the depositary bank and the company based upon industry standards.

The fee per depositary receipt is not dependent on the total amount of dividend being paid, but the amount of securities held.

- 21.5 SCM may charge commission and fees related to Corporate Actions. The prevailing trading costs are set out in the Commissions, Charges & Margin Schedule.
- 21.6 Taxes and fees may also occur on Corporate Actions such as fee on a stock dividend or tax on a merger. When such taxes and fees occur SCM may debit the Client's Account accordingly.

FINANCIAL TERMS

22. COMMISSIONS, CHARGES AND OTHER COSTS

- 22.1 The Client shall be obliged to pay to SCM the Commissions and Charges set out in the Commissions, Charges & Margin Schedule. The Commissions, Charges & Margin Schedule is available on SCM's website, <http://www.home.saxo/sg>, and may be supplied to the Client on demand.
- 22.2 SCM may vary the Commissions and Charges without notice when the change is to the Client's advantage, or the grounds for changes are due to external circumstances beyond SCM's control. Such circumstances include:
- significant particulars of the Client, based on which individual conditions were provided, have changed;
 - changes in the relationship with SCM's Liquidity Providers, which affect SCM's cost structures; and/or
 - changes in commissions, fees and charges from Regulated Markets, other markets, clearing houses, information providers or other third party providers.

- 22.3 SCM may introduce new fees and vary the Commissions and Charges with one month's notice, if:
- Market conditions, including competitive behaviour, call for changes to SCM's conditions; and/or
 - SCM for commercial reasons wishes to change its general cost and pricing structure.
- 22.4 The Client is deemed to have accepted the changes in Commissions and Charges pursuant to Clause 22.3 if the Client does not, before the proposed date of the change in Commissions and Charges (or for immediate changes promptly after the change), notify SCM that the Client does not accept the change in Commissions and Charges.
- 22.5 In addition to Commissions and Charges, the Client shall be obliged to pay all applicable GST and other taxes, storage and delivery charges, fees of Regulated Markets and clearing houses and all other fees incurred by SCM in connection with any order, Contract and/or in connection with SCM maintaining the Client relationship.
- 22.6 Furthermore, SCM shall be entitled to demand that the following expenses are paid separately by the Client:
- All extraordinary disbursements resulting from the Client relationship, e.g. telephone, telefax, courier, and postal expenses, in case the Client requests hardcopy Settlement/Trade Confirmations, Account Statements etc. which SCM could have delivered in electronic form;
 - Any expenses of SCM caused by non-performance by the Client including a fee determined by SCM in relation to forwarding of reminders, legal assistance etc.;
 - Any expenses of SCM in connection with replies to inquiries by public authorities including a fee determined by SCM in relation to forwarding of transcripts and enclosures and for the preparation of copies;
 - Administration fees in connection with deposits of Instruments with custodians and insurance premium payments;
 - Any expenses of SCM in connection with auditor's comments/reports if such are requested by the Client; and
 - Any handling fee to SCM in connection with requests for documentation from the Client.
- 22.7 Fees will be charged either as a fixed amount corresponding to payments effected or as a percentage or hourly rate corresponding to the service performed. The methods of calculation may be combined. SCM reserves the right to introduce new fees.
- 22.8 SCM may share any commissions and charges with its affiliates, Introducing Brokers or other third parties or receive remuneration from them in respect of Contracts and other transactions entered into by SCM. Details of any such remuneration or sharing arrangement will not be set out on the relevant Settlement/Trade Confirmations. SCM (or any associate) may benefit from commission, mark up, mark down or any other remuneration where it acts as counterparty to a Contract.
- 22.9 SCM shall disclose to the Client the receipt of, or payment of, any commission including (i) the characteristics of and (ii) the amount of, or method of calculating, the commission in accordance with relevant laws.
- 22.10 The Client accepts that interest charges, commissions, brokerage fees and other costs associated with the Client's trading activities may be extensive and may, in addition to trading losses, deplete or exceed the value of deposited Collateral and negatively affect the Client's Account. SCHEDULES

38. RISK DISCLOSURE STATEMENT FOR TRADES IN FUTURE CONTRACTS OR LEVERAGED FOREIGN EXCHANGE CONTRACTS, CFD'S AND SECURITIES

This statement is provided to you in accordance with regulation 47E(1) of the Securities and Futures (Licensing and Conduct of Business) Regulations (Rg10).

This statement does not disclose all the risks and other significant aspects of trading in futures, options and leveraged foreign exchange. In light of the risks, you should undertake such transactions only if you understand the nature of the contracts (and contractual relationships) into which you are entering and the extent of your exposure to the risks. Trading in futures, options and leveraged foreign exchange may not be suitable for many members of the public. You should carefully consider whether such trading is appropriate for you in the light of your experience, objectives, financial resources and other relevant circumstances. In considering whether to trade, you should be aware of the following:

LEVERAGED FOREIGN EXCHANGE TRADING, CFD'S AND FUTURES

1. Effect of "Leverage" or "Gearing"

Transactions in leveraged foreign exchange, CFD's and futures carry a high degree of risk. The amount of initial margin is small relative to the value of the leveraged foreign exchange transaction, CFD's or futures contract so that transactions are "leveraged" or "geared". A relatively small market movement will have a proportionately larger impact on the funds you have deposited or will have to deposit; this may work against you as well as for you. You may sustain a total loss of initial margin funds and any additional funds deposited with the firm to maintain your position. If the market moves against your position or margin levels are increased, you may be called upon to pay substantial additional funds on short notice to maintain your position. If you fail to comply with a request for additional funds within the specified time, your position may be liquidated at a loss and you will be liable for any resulting deficit in your account.

2. Risk-reducing Orders or Strategies

The placing of certain orders (e.g. "stop-loss" orders, where permitted under local law, or "stop-limit" orders), which are intended to limit losses to certain amounts, may not be effective because markets conditions make it impossible to execute such orders. At times, it is also difficult or impossible to liquidate a position without incurring substantial losses. Strategies using combinations of positions, such as "spread" and "straddle" positions may be as risky as taking simple "long" or "short" positions.

OPTIONS

3. Variable Degree of Risk

Transactions in options carry a high degree of risk. Purchasers and sellers of options should familiarize themselves with the type of option (i.e., put or call) which they contemplate trading and the associated risks. You should calculate the extent to which the value of the options must increase for your position to become profitable, taking into account the premium and all transaction costs.

The purchaser of options may offset or exercise the options or allow the option to expire. The exercise of an option results either in a cash settlement or in the purchaser acquiring or delivering the underlying interest. If the option is on a future or leveraged foreign exchange transaction, the purchaser will acquire a futures or leveraged foreign exchange transaction position, as the case may be, with associated liabilities for margin - (see the section on Leveraged Foreign Exchange, CFD's and Futures). If the purchased option expires worthless, you will suffer a total loss of your investment, which will consist of the option premium plus transaction costs. If you are contemplating purchasing deep-out-of-the-money options, you should be aware that the chance of such options becoming profitable ordinarily is remote.

Selling ("writing" or "granting") an option generally entails considerably greater risk than purchasing options. Although the premium received by the seller is fixed, the seller may sustain a loss well in excess of the amount of premium received. The seller will be liable for additional margin to maintain the position if the market moves unfavourably. The seller will also be exposed to the risk of the purchaser exercising the option and the seller will be obligated to

either settle the option in cash or to acquire or deliver the underlying interest. If the option is on a futures contract or a leveraged foreign exchange transaction, the seller will acquire a futures or leveraged foreign exchange position, as the case may be, with associated liabilities for margin (see the section on Leveraged Foreign Exchange, CFDs and Futures above). If the option is "covered" by the seller holding a corresponding position in the underlying futures contract, leveraged foreign exchange transaction or another option, the risk may be reduced. If the option is not covered, the risk of loss can be unlimited.

Certain exchanges in some jurisdictions permit deferred payment of the option premium, exposing the purchaser to liability for margin payments not exceeding the amount of the premium. The purchaser is still subject to the risk of losing the premium and transaction costs. When the option is exercised or expires, the purchaser is responsible for any unpaid premium outstanding at that time.

4. Stock Exchange Markets

Transactions in securities will expose you to the volatility of the various stock exchange markets in which the shares, stocks, warrants, bonds, debentures, notes debts securities and other securities within the definition of "securities" under the Securities and Futures Act (Cap 289) (collectively the "securities") are traded. In particular, the value of securities may experience downward movements and may under some circumstances even become valueless. Hence there is an inherent risk that losses rather than profits may be incurred as a result of buying or selling securities.

Saxo Capital Markets is entitled to act upon your instructions and you cannot assume that we will warn you if your instructions are ill-timed or inadvisable for any reason or if the instructions are likely to cause you loss.

Owing to the volatility of the stock exchange markets, it may not be practicable for Saxo Capital Markets to contact you prior to any sale and/or purchase of securities pursuant to any agreement.

You will be exposed to risks of bad delivery of securities purchased. There are also risks involved in not registering purchased securities in your name, in the name of your nominee or custodian.

ADDITIONAL RISKS COMMON TO LEVERAGED FOREIGN EXCHANGE TRADING, CFD'S, FUTURES, OPTIONS AND SECURITIES

5. Terms and Conditions of Contracts

You should ask the corporation with which you conduct your transactions about the terms and conditions of the specific CFD, futures contract, option or leveraged foreign exchange transaction which you are trading and associated obligations (e.g. the circumstances under which you may become obligated to make or take delivery of the underlying interest of a futures contract and, in respect of options, expiration dates and restrictions on the time for exercise). Under certain circumstances the specifications of outstanding contracts (including the exercise price of an option) may be modified by the exchange or clearing house to reflect changes in the underlying interest.

6. Suspension or Restriction of Trading and Pricing Relationships

Market condition (e.g., illiquidity) and/or the operation of the rules of certain markets (e.g., the suspension of trading in any contract or contract month because of price limits or "circuit breakers") may increase the risk of loss by making it difficult or impossible to effect transactions or liquidate/offset positions. If you have sold options, this may increase the risk of loss.

Further, normal pricing relationships between the underlying interest and the futures contract, and the underlying interest and the option may not exist. This can occur when, for example, the futures contract underlying the option is subject to price limits while the option is not. The absence of an underlying reference price may make it difficult to judge "fair" value.

7. Deposited Cash and Property

You should familiarize yourself with the protection accorded to any money or other property you deposit for domestic and foreign transactions, particularly in the event of a firm in solvency or bankruptcy. The extent to which you may recover your money or property may be governed by specific legislation or local rules. In some jurisdictions, property which had been specifically identifiable as your own will be pro-rated in the same manner as cash for purposes of distribution in the event of a shortfall.

8. Commission and Other Charges

Before you begin to trade, you should obtain a clear explanation of all commissions, fees and other charges for which you will be liable. These charges will affect your net profit (if any) or increase your loss.

9. Transactions In Other Jurisdictions

Transactions on markets in other jurisdictions, including markets formally linked to a domestic market, may expose you to additional risk. Such markets may be subject to regulation, which may offer different or diminished investor protection. Before you trade, you should enquire about any rules relevant to your particular transaction. Your local regulatory authority will be unable to compel the enforcement of the rules of regulatory authorities or markets in other jurisdictions where your transactions have been effected. You should ask the firm with which you conduct your transactions for details about the types of redress available in both your home jurisdiction and other relevant jurisdictions before you start to trade.

10. Currency Risks

The profit or loss in transactions in foreign currency-denominated futures and options contracts (whether they are traded in your own or another jurisdiction) will be affected by fluctuations in currency rates where there is a need to convert from the currency denomination of the contract to another currency.

11. Trading Facilities

Most open-outcry and electronic trading facilities are supported by computer-based component systems for the order-routing, execution, matching, registration or clearing of trades. As with all facilities and systems, they are vulnerable to temporary disruption or failure. Your ability to recover certain losses may be subject to limits on liability imposed by one or more parties, namely the system provider, the market, the clearing house or member firms. Such limits may vary. You should ask the firm with which you conduct your transactions for details in this respect.

12. Electronic Trading

Trading on an electronic trading system may differ not only from trading in an open-outcry market but also from trading on other electronic trading systems. If you undertake transactions on an electronic trading system, you will be exposed to risks associated with the system including the failure of hardware and software. The result of any system failure may be that your order is either not executed according to your instructions or not executed at all.

13. Off-Exchange Transactions

In some jurisdictions, firms are permitted to effect off-exchange transactions. The firm with which you conduct your transaction may be acting as your counterpart to the transaction. It may be difficult or impossible to liquidate an existing position, to assess the value, to determine a fair price or to assess the exposure to risk. For these reasons, these transactions may involve increased risks. Off-exchange transactions may be less regulated or subject to a separate regulatory regime. Before you undertake such transactions, you should familiarize yourself with applicable rules and attendant risks.

39. RISK DISCLOSURE STATEMENT FOR TRADES IN COMMODITY CFD'S

1. This statement is provided to you in accordance with Section 32(1) of the Commodity Trading Act.
2. The intention of this statement is to inform you that the risk of loss in trading in commodity contracts and in spot commodity contracts can be substantial and that your losses can exceed your deposits. You should therefore carefully consider whether such trading is suitable for you in light of your financial condition and you should only trade after knowing and accepting the risks associated with such trading.
3. In considering whether to trade, you should be aware of the following:
 - (a) **Margin:** You may sustain a total loss of the initial margin and any additional margins that you deposit to establish a position or maintain positions in the commodity market. If the market moves against your positions, you may be called upon to deposit a substantial amount of additional margins, on short notice, in order to maintain your positions. If you do not provide the required margins within the prescribed time, your positions may be liquidated at a loss, and you will be liable for any resulting deficit in your account.
 - (b) **Liquidation of position:** Under certain market conditions, you may find it difficult or impossible to liquidate a position.

- (c) Contingent orders: Placing contingent orders, such as "stop-loss" or "stop-limit" order, will not necessarily limit your losses to the intended amounts, since market conditions may make it impossible to execute such orders especially in rapidly moving markets.
 - (d) "Spread" position: Certain strategies such as a "spread" position may not be less risky than a simple "long" or "short" position.
 - (e) Leverage: The high degree of leverage that is often obtainable, trading in commodity contracts and spot commodity trading because of the small margin requirements can work against you as well as for you. Please note that trading risks are magnified by leverage - where losses can exceed your deposit.
 - (f) Foreign markets transactions: If applicable, funds placed with a commodity broker for the purpose of participating in foreign markets may not enjoy the same level of protection as funds placed in commodity markets located in Singapore.
4. This brief statement is merely a summary of risks involved in trading in commodity contracts. As it is a summary of risks, it does not claim to address all the risks and other significant aspects of the commodity market. You should therefore carefully study trading in commodity contracts before you trade.
